After a few years of interruption, the time has come again. There is now another opportunity to meet again at a new congress. This congress is prepared for people with disabilities and offers many opportunities to meet, travel and learn something new. The theme of this congress will be “Acceptance”.

It is already the fifth congress in this series: Moscow 2010, Ekaterinburg 2012, Sevastopol 2018 and Kinel-Cherkassy 2020.

We have prepared a great programme. We will experience culture, visit the city and learn many new things in the working groups. We offer you accommodation in a hotel or you take care of it yourself. That is why we have indicated two participation fees. Please register quickly because we only have limited places!

We hereby cordially invite you to this congress. See you soon in Kazan!
